

Construction Materials Testing Field Technicians

Specialized Engineering seeks full time entry-level or experienced **Construction Materials Testing Field Technicians** to work on-site at contract locations throughout the Maryland/Baltimore/DC Metropolitan/Northern Virginia regions. Technicians ensure materials on the project meet standards required by engineering plans and specifications.

Primary responsibilities include conducting tests and field observations for construction materials including soil, concrete, asphalt, reinforcing steel, foundations and masonry; documenting field inspection reports daily; in addition to performing duties as a quality assurance inspector on construction sites.

Successful candidates will:

- possess outstanding attention to detail
- exhibit strong oral and written communication skills
- be required to read, understand, follow directions and accurately document collected data
- be able to lift up to a 60-pound load
- have a valid driver's license and reliable, independent transportation

Prior experience, or background in construction and engineering work, and ACI/NICET/WACEL/MARTCP/VDOT/WVDOH certifications are a plus, but not required. Hired candidates will be required to pass various industry-related exams for certification.

Specialized Engineering is a drug free workplace with a pre-employment drug screen and background check required for potential employees.
